### Dietary requirements

When ordering from the special diets menus, please make it clear at the counter if there is anything our kitchen should know before we prepare your meal. We make every meal to order and can often adapt our menu to suit your needs but we do need forewarning.

- We can substitute cows milk for oat milk.
- We can substitute bread and baps for gluten free sliced bread.
- we can remove coleslaw to make some items vegan

We appreciate that some customers may have intolerances to more than one ingredient, so it's highly important you let us know. We may be able to assist with your needs, and will always try to do so; however due to manufacturing processes and our multi-function kitchen it might not be possible to always cater for everyone's needs. Our menu is supported with an Allergen File for your reassurance. Please ask to view it to see what ingredients we use and if you require any further assistance in making your choices.
